

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 49.

BLAIRMORE, ALBERTA, THURSDAY, DECEMBER 6, 1923.

\$2.00 YEARLY

PASS MINES WILL OPERATE steadily after Dec. 10th full capacity scale next week. According to latest advices, the mines in this district, which for several months have been working on a slack time, will begin operation on a full capacity scale next week. The new Plaza Cafe opens for business on Saturday.

HOME BANK DEPOSITORS' DELEGATE REPORTS PROGRESS

A meeting of the executive committee of the Blairmore Branch of the Home Bank Depositors' Association was held on Monday night, at which Mr. Wheatley, special delegate to Edmonton, reported the result of his mission as follows:

Blairmore, Alberta,
November 29th, 1923.

To The Depositors,

Blairmore Branch of the Home Bank of Canada.

In response to the wishes of Premier Greenfield, that representatives of the two Alberta branches of the Home Bank Depositors' Association place conditions of each locality before the government, and having been selected for that purpose by the Blairmore executive, I have to report that in company with Mr. H. H. Higginbotham, chairman of the Calgary

Deputies, we met Premier Greenfield and Attorney-General Brownlee on Tuesday morning, November 27th, and laid before them very fully the total conditions arising out of the failure of the Home Bank.

Premier Greenfield informed us that the Alberta government had appointed Mr. A. G. Brownlee, former deputy attorney-general, to watch the interests of the Alberta depositors and report to the government as to matters of interest and benefit to Alberta depositors.

The Calgary depositors did not approve of this. We pointed out that the political mind of Mr. Brownlee might well serve the interests of the Alberta government, but the depositors for whom we spoke felt that what was needed was an aggressive policy of publicity of the whole disaster before the Canadian people, the Federal government, and Canadian Bankers' Association, in asking redress for their losses.

To this end the government has placed the sum of \$500 at the disposal of the Alberta depositors, and Mr. Higginbotham has been selected by a meeting of Calgary depositors to represent them at the general meeting of depositors to be held in Toronto on December 6th, and subsequent meetings that may be held in furtherance of the wishes of the Home Bank depositors. I heartily endorse the selection of Mr. Higginbotham, feeling that he is well fitted for the work.

In connection with the losses sustained by the depositors of Blairmore, coupled with the acute unemployment situation in this locality, Premier Greenfield informed your representatives that the provincial government was willing to render any necessary assistance they possibly could, through the town council, to those in distress through this disaster, and I recommended the town councillors at once look into this possibility of relief.

I was asked to lay before the government the serious losses sustained by our school district, necessitating the borrowing of monies to carry on our schools. Premier Greenfield pointed out that the government had a fund that could be used for contingencies of this nature and that our board might avail themselves of a loan of these funds. I informed the premier that it was improper that this community should now be saddled by the expense of incurring loans, after having met their obligations as required by the school ordinance. The ratepayers, having paid their school taxes for 1923 and having placed them as required in this chartered bank, should be discharged from their obligation and the issue should now be taken up by the Department of Education. To ask these unfortunate ratepayers, who have lost their savings in this bank failure, to again pay the amount required to meet the losses of 1923 taxes is an additional disaster to them that cannot be justified, and I contended should be assumed by the government.

Premier Greenfield informed me that if the school board would place the matter before him, he would give some of his best consideration.

I therefore recommend that the School Board take the matter up with the premier at once, as it should not be difficult to impress the government of their joint responsibility in these losses to our school district, and shall be pleased to assist them to the best of my ability.

All of which is respectfully submitted.

FRANK WHEATLEY.

Morgan-Joyce—That we extend to Mr. Wheatley our thanks for the able manner in which he represented the case for the Blairmore Depositors before the government, and for his success in securing such offers of assistance towards local relief and towards sending representation to Ottawa and Toronto. Also that Mr. Wheatley's report be received.

The following communications were

read at the meeting:

Calgary, Nov. 30, 1923.
Secretary Depositors' Association,
Blairmore, Alberta.

Dear Sirs:

Mr. Higginbotham has asked me to acknowledge your letter of November 27th and to thank you for the information contained therein. He will be glad to make use of the information contained in your letter and will co-operate with Mr. Henderson and representatives from other points to the best of his ability in an effort to secure the return of the full amount deposited in the Home Bank.

Yours very truly,
J. B. KIDD,
Secretary Calgary Depositors.

Nanton, Alberta,
November 30, 1923.
Secretary Home Bank Depositors,
Blairmore, Alberta.

Dear Sir:

Your letter of the 27th received, enclosing copy of resolution passed by the Home Bank Depositors' Association.

LUTE-TURNER NUPTIALS

The marriage of James Lute, eldest son of Mr. and Mrs. Francis Lute, of Hillcrest, to Miss Grace Turner, second daughter of Mr. and Mrs. Samuel Turner of Blairmore, was solemnized at the Union church on Thursday evening last by Rev. W. T. Young.

The happy event was witnessed by a whole concourse of friends.

The young couple have taken up residence in West Blairmore.

Regret to say that I have been confined to the house most of the time since my return from your town, with a bad cold. Was getting better, but had a relapse and doctor ordered me to bed.

Had planned to make another trip to Blairmore and if possible hold a public meeting to discuss the Bank Act and existing situation, but this illness may prevent that.

Sincerely yours,
G. G. COOTE.

A Growing Bank Account

Is an incentive to greater effort, and a stepping stone to success. For 58 years the Union Bank of Canada has helped many thousands of people to save their earnings. Open a Savings Account NOW; acquire the habit of saving regularly and you will have that feeling of security which comes with money in the bank.

SAY GERMANY IS RECRUITING AND RE-ARMING

London. — "Disarming information concerning the extent to which Germany is recruiting and re-arming has been received by the British Government," says a Reuters news item.

"Although this view is taken officially that the information reveals potential, rather than imminent danger, the British authorities are frankly concerned over the situation and its bearing on the peace of Europe."

The newspapers are devoting considerable attention of the news item. The foreign office, in a statement, however, says the information given out should not be attributed to any official authority.

"It is known that rapid military training of large numbers of men in excess of the Versailles treaty stipulations has been progressing," says the Reuters article. "This, it is declared, is more than ever the case since the allied military control ceased nearly a year ago. Recruiting has been especially active in Bavaria circles, where the Security police have been engaged in manoeuvres with the army. The training of students also is in constant process. Hitherto, all attempts to induce Germany to produce recruiting returns in order to enable the allies to check up the paper strength of the German army at any given moment of inspection with the number of recruits actually trained has been unsuccessful."

Rhodes Scholar Chosen

J. A. Corry Selected From Five Applicants in Saskatchewan

Regina. — James Alexander Corry, a bachelor of laws and a 1923 graduate of the University of Saskatchewan, was chosen as the 1923 Rhodes scholar for this province. Five applied for the honor.

The successful candidate was born in Morrongton, Perth County, Ontario, 23 years ago. He is now living at the Presbyterian College, Saskatoon.

During his career at the university he was prominent in athletics with a special bent for soccer, football and hockey. In three years he was successively news editor, managing editor and finally editor-in-chief of the Weekly Star, the university publication.

At Oxford he will continue the study of law.

Record Collection of Spawn

Ottawa. — The Department of Marine and Fisheries reports a record collection of fifty-four million whitefish eggs in the waters of the Lake of the Woods, for incubation in the Kenora hatchery. The current season's collection exceeds that of any previous year by several millions.

Tokio. — General Kikido Utani, military councillor of the Japanese Government since 1917 and former commander of Japanese forces in Siberia, died here Nov. 26. He was 67 years old.

London. — The large whiskey interests in England, Scotland and Ireland have united to open a campaign to persuade the chancellor of the exchequer to reduce the present high tax on whiskey and spirits.

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product provided safe by millions and prescribed by physicians over twenty-three years for colds, toothache, lumbago, rheumatism, neuralgia, headache, etc.

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Ready boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Monocrocinolide of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

W. N. U. 1501

Cannot Escape Income Tax

Toronto. — Declaring that Canada was in an "income age," Dr. Horace L. Brittain, director of the Citizens' Research Institute of Canada, told the Ontario Manufacturers' Association that the abolition of income taxation would only mean that a provincial income tax would be levied. Dr. Brittain said that while ten years ago the provinces in the Dominion would have the income taxes, either a Dominion and a provincial tax, or a Dominion and a municipal tax.

Form Prohibition League

Dry Forces in Saskatchewan to Combat Efforts of Moderationists

Regina. — To combat the efforts of the Moderation League of Saskatchewan to secure a referendum on the liquor question and subsequently the introduction of a system of government control of the sale of liquor, the Prohibition League of Saskatchewan was launched at the prohibition convention held here.

The provincial prohibition convention was attended by about 250 delegates representative of various organizations from all sections of the province. It was decided, after the league had been organized, to hold a general meeting this year.

Resolutions were adopted expressing disapproval of the submission of a referendum until at least the expiration of three years from December 15, 1923, when the export liquor warehouses went out of business. The question of sending a delegation to the government to convey this view was referred to the executive of the newly created organization.

A proposal that a counter petition to the Moderation League petition be circulated was also referred to the executive, the statement being freely made that at least 100,000 names could be secured to such a petition.

Royal Grain Commission

Alberta to Present State Case Regarding Grain Exchange

Edmonton. — Attorney-General Brownlee says that the Alberta Government will present a state case to the Royal Grain Commission, when it takes up, in Winnipeg, its investigation into the grain exchange.

It has not yet been decided, however, in what way the case will be handled. Mr. Brownlee may himself go east for the purpose, if the session of the legislature does not prevent his doing so, and in that event the case may be presented by G. H. Van Allen, who is now acting as special counsel for the government at the grain commission hearings.

Farmed Same Land

For Eleven Centuries

French Family Has Held Estate Since the Year 772

Paris. — The government announced that it would decorate with the Order of Agricultural Merit the heads of all families which could produce documentary evidence of having farmed the same land continuously for at least three centuries. The list sought to be no less than 500 families with the necessary qualifications. The record is held by the La Pargues, formerly of Coultre, near Moulins, who have lived on the present estate since the year 772.

Not Little Englanders

London. — J. H. Thomas, railway labor leader and parliamentary candidate, speaking at Barrow, said those who called members of the Labor party "Little Englanders," and declared the Labor party did not believe in the Empire, were "deliberate liars." He added: "We want to see the empire great, but we don't measure greatness by bloody victories or the size of the army and navy."

Will Not Employ Children

Toronto. — Ninety-five per cent. of industrialists will dispense with the services of their employees between the age of 14 and 16 years if the provision of the Adolescent School Attendance Act regarding part-time instruction be strictly enforced, it is stated.

"Red" Munitions Explode

Copenhagen. — According to a message from Helmsfors an explosion in the Red Army's principal munition depot in Chitouni, Ukraine, caused the death of that destroyed the greater part of the town's Jewish quarter. Twenty persons were injured.

Japan Postpones New Work

Tokio. — The reconstruction board has reduced the government estimates for rehabilitation to \$790,000,000 (\$2,350,000,000). This means the postponement of the Tokyo-Yokohama Canal and the Tokyo harbor works.

NOBLE LORDS IN BRITAIN CLAIM POVERTY

London. — When Lloyd George conducted his famous land tax campaign a good deal was heard from the other side about the poverty of the noble houses, and dukes and marquises would describe themselves seriously as a poor but honest class.

Some noblemen are uttering similar sentences in the present election. Lord Derby told a Liverpool audience that he might have to consider leaving his ancestral home because of the heavy burden of taxation. The duke of capital levy was established already in the death duties, he said; when he succeeded his father he had to pay this kind of levy, and it took 20 years before the whole matter was settled up. Lord Derby did not mention that his father's estate was valued at \$3,000,000.

Another penniless member of the nobility, on his own showing, is the Duke of Abthorpe. He told a gathering at Bideford, that it was quite true that he had one of the largest properties in the country but it was heavily mortgaged. He and his wife were living in a small cottage, as they could not afford to occupy their rental residence, he said.

"Can you put me up in your small cottage?" demanded an interrupter. The duke replied that he could put up two people but he was particular about his guests.

Sea Outlet For Switzerland

Enlarging of Vado Port Would Speed Up Transport

Genoa, Italy. — An extensive project is being studied and plans have already been submitted to the Swiss Government. It is stated here, smiling at the transformation of the nearby port of Vado into a sea outlet for Swiss commerce. The project includes the enlargement of the port, the construction of several docks and storehouses, and the readjustment of the existing railway lines in order to speed up transport of goods to and from Switzerland by the Simplicon and St. Gothard routes.

Belgium Anxious To Reduce Ruhr Forces

Hopes to Have 5,000 Men Home By Christmas

Brussels. — The Belgian Government. It is learned, soon will raise in friendly conversations with France the question of a partial withdrawal of the forces in the Ruhr. Now that active and passive resistance is considered ended, the Belgians hope to bring back 5,000 of their men from the Ruhr by Christmas.

The question will be discussed with the Paris Government, as soon as the Ruhr situation is stabilized.

Will Register Immigrants

British and U.S. Steamship Companies Agree on New Plan

New York. — New plans for the registration of immigrants leaving for the United States, to avert a rush on the first of the month and allot a fair share of traffic to each steamship company have been agreed upon by British companies and the United States lines, officials of the United States immigration service have announced.

The system provides for registration of immigrants, not to exceed in number the monthly quota by a neutral board.

NEW COALITION PARTY FORMED IN GERMANY

Berlin. — A three-party coalition comprising the Catholics, the People's Party and the Democrats, with Dr. Wilhelm Marx, Clerical leader, as chancellor, will succeed the deposed Stresemann ministry, it was stated here.

The cabinet posts have not yet been allotted, but it is believed Dr. Stresemann will be given the foreign portfolio. The new coalition will constitute a minority government.

It is understood that the assignments of cabinet portfolios are: Minister of the Interior, Dr. Otto Jassier; Minister of Defense, Dr. Jaros; Minister of Food, Dr. Hans Luther; Minister of justice, Dr. Anton Heine; Minister without portfolio, Rudolph Oeser.

All these were members of the Stresemann ministry, holding the same portfolios.

WESTERN EDITORS

W. M. Davidson, Editor of The Morning Alberta, Calgary, Alta.

Ontario Waives Claim To Assist Depositors

Will Wait Eighteen Months Before Asking Payment From Home Bank

Toronto. — Following a conference between Premier Ferguson, Attorney-General W. F. Nelles and G. T. Clark, son, liquidator for the Home Bank of Canada, the government decided to wait for a period of 18 months before asking for the full payment of \$1,500,000 of provincial monies on deposit with the bank.

The government deposit will bear interest at three per cent, which means a saving to the depositors of about two per cent, or \$37,500 as the amount involved would have to be borrowed from the Canadian Bankers' Association at five per cent interest.

Demands Payment

Jugo-Slavia Sends Strong Note to German Government

Belgrade, Serbia. — The Jugo-Slav Government has sent, through the reparation commission, a note to Germany demanding in strong terms the execution of Germany's obligations to Jugo-Slavia and the handing over of deliveries in kind ordered prior to August 11. The note threatens in the event of non-compliance that Jugo-Slavia will take the sanctions provided for by the peace treaty.

Rhineland Government Upset

Düsseldorf. — The provisional government of the Rhineland Republic has been dissolved by Joseph Mathias at Coblenz, following an internal military coup. It was learned here from Mathias himself, who fled while the military separatist dictatorship was being set up.

Collect Millions of Fish Eggs

Ottawa. — The Department of Marine and Fisheries reports a record collection of 64 million white fish eggs in the waters of the Lake of the Woods for incubation in the Kenora hatchery. The current season's collection exceeds that of any previous year by several millions.

Something to Think About

New York. — Ignorance of the English language is blamed by English workers for the accidents occurring daily in New York factories. Such accidents mean a loss of about \$50,000 daily, to say nothing of the loss of life and limb.

May Use Ice Boats

Detroit. — Ice boats probably will be added to the equipment of the prohibition enforcement unit here in an effort to maintain an effective blockade against liquor running from Canada. E. L. Porter Field, assistant national prohibition commissioner announced.

Voice Across the Sea

New York. — A baritone solo broadcast from the London radio station 2LO, was heard distinctly here at the radio station W.O.R., officials announced.

Very Little Rum Running

Washington. — Federal prohibition director Stone, of North Dakota, returned after a visit to Winnipeg, where he investigated conditions under which liquor is being sold in Manitoba. He reported that restrictions on the sales are "very tight," and, despite reports to the contrary, little liquor was coming across into the United States. In his report, made to Federal Commissioner Haines, Mr. Stone said that few persons were crossing the Canadian border to purchase liquor in Manitoba, but that "as long as they are selling \$12.00 worth of hard liquor a day, a little is bound to leak across the border."

Hebreans Have Been Successful in Alberta

Arrangements Being Made For Another Contingent Next Year

Red Deer, Alta. — Some immigrants from the Hebreans Islands will be brought into the Red Deer district next year as a result of the success and prosperity which attended the settlement of more than 200 Hebreans in this and adjacent districts last summer. The Calgary Alberta correspondent has learned. Officials of the city of Red Deer and the citizens generally, and well pleased with the record of the Hebreans who have settled on the land in the district, they stated that they would welcome a considerably augmented influx of this highly desirable class of settlers.

Farther MacDonald, who became known across Canada when he brought in the original settlement of Hebreans, is now in the Hebreans again arranging for emigration to Alberta next year of another large contingent, and Father MacMillan, also returned to his native land to aid him.

Plans Loan For Hungary

Committee Agrees on Scheme to be Presented to League

London. — The committee of the League of Nations which has been meeting here to consider the reconstruction of Hungary has unanimously agreed upon a scheme which will be submitted to the Council of the League of Nations, December 16, for consideration of certain political aspects of the problem.

It is understood that the leading features of the scheme are:

First. — The reparation lien on Hungary's resources is to be cancelled.

Second. — A reconstruction loan for a short period with Hungary's national assets as security.

Third. — The League to exercise financial supervision.

Fourth. — Provision to be made for further credit for reparation payment.

Fifth. — The little extent countries to share in the control of credit, and be exempted of their liabilities as the succession states of Hungary.

May Not Reach Agreement

Britain and Italy Setting Obstacles for France Says Paris Journalist

Paris. — Jules Saureau, foreign editor of Le Matin, expresses the conviction that Great Britain and Italy are going to raise more and more obstacles in the path of France. He says he has no doubt but that the lack of members of the military commission in Berlin have received instructions which mean simply the suppression of control altogether.

The Petit Parisien says that London and Paris have reached an agreement on most of the points involved in the Tanczer question but that Madrid is hesitating.

Foreigners Swindled

New York. — Foreigners in the last few years have been swindled out of approximately \$12,000,000 by a ring of real estate sharks, selling undeveloped march lands within a fifty mile radius of New York, James C. Wilson, deputy assistant district attorney, testified before the joint legislative committee investigating immigrant exploitation.

EXPECTING MANY SETTLERS FROM BRITISH ISLES

Montreal. — (Canada will improve facilities for placing people on the land, making it easier, by means of better organization or otherwise, to become settled, the flow of adaptable people from the British Isles to this country will be greatly increased," said Dr. W. J. Black, manager of the colonization and development department of the Canadian National Railways in London, England, in an interview on his arrival in Montreal from England.

Dr. Black is enthusiastic over the outlook, and while he refrains from making any claims that might be called extravagant, he expresses the belief that immigration to Canada next year will be much heavier than this year. This prediction he bases upon two fundamentals and the evident desire of the federal and provincial governments to arrive at a clear understanding of the immigration to Canada next year of the proper machinery for bringing into this country immigrants of a desirable and adaptable type. The second is the genuine interest shown by Britishers in Canada and the opportunities which Canada offers. This interest is not local to one or two sections of England or Scotland, but is general, according to Dr. Black.

River Waters Cause Typhoid Epidemic

Turned Into Mains to Give Quebec Town Ample Fire Protection

Montreal. — Two people are dead and over a hundred are ill as a result of typhoid fever epidemic, caused by the population drinking polluted river water, which has been raising in the town of St. Jerome, Que.

The epidemic, according to Dr. Les Loges, head of the provincial department of health, was caused by demonstrations made in St. Jerome during "fire prevention week" a fortnight ago, when in their enthusiasm and desire to give the town a big water supply to fight fires, the authorities laid pipes from the polluted waters of the Riviere Du Nord into the town's water supply.

Two government health inspectors are in St. Jerome, leading a large number of doctors and trained nurses in an effort to prevent the disease from spreading and to save the hundred or more victims already stricken with the disease. It is believed that a check has been given to the epidemic.

Planning New Russian City

Berlin. — A new Russian city, to be called Novorossiysk in honor of the Soviet Premier, is planned in the Mugan district of the Caucasus, according to a newspaper report received here. The city will be laid out in the pattern of the Soviet star, the places between the points to be filled with parks and public gardens.

Saskatchewan Wheat Pool

Regina. — Over 250,000 acres have now been signed up for the Saskatchewan Wheat Pool with waivers and new contracts received at the pool headquarters here.

To Help the Veterans — Play This Game

Enter the Foster-Lodge Competition which is being conducted in Canada for the benefit of the Veterans' Association, and to which ROYAL LIMITED has donated prizes totaling \$20,000, about \$12,000.00.

These are divided in 2,000 prizes, each of the first three being really a fortune in itself. The amounts are approximately as follows:

1st Prize, \$25,555

2nd Prize, \$12,555 — 3rd Prize, \$4,555 and 2,000 other prizes of varying values.

SEND A DONATION OF \$1.00. Enter contest of 100 to be selected with a Foster-Lodge, on which sixteen of the most celebrated ROYAL LIMITED posters are reproduced in full color. Who are the 10 best, in order of merit, is what you must decide. The holder shows just how you must decide. It is a contest of skill, which can be played over and over again and interest to the game.

Donations should be made in any of the following organizations or to the Veterans' Association of Great Britain, 2725 Park Avenue, New York, N.Y. or the Canadian Veterans' Association, 1000 Avenue of the Stars, Ottawa, Ontario, and Navy and Air Force Veterans' Association, 1000 Avenue of the Stars, Ottawa, Ontario.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs. Dec. 6, 1923

COMMUNICATION

Blairmore, Alta.,
December 3rd, 1923.

Editor,
Blairmore Enterprise.

Sir—Your issue of November 29th contained the information that the Blairmore Town Council at its recent meeting endorsed a letter from the Drumheller Municipality asking the government to increase the Educational Poll Tax from the present rate of four dollars to ten dollars and instructed their representatives to the convention of Municipalities to support this request.

Not being a property owner, I have not the authority as a ratepayer to rebuke the council's action, but as a citizen paying rates through the medium of rent and the Poll Tax in addition, I beg leave to use your valuable paper for this purpose and to say further, that when this legislation was first introduced, a strong protest was made by Labor throughout the province, and the protest was finally subdued by the fact that a wider representation would be made possible through this four dollar tax, and educational institutions would be enabled to cope with the crying need of better and higher education. As to the experiment, the least said is the soonest mended, for we find very few of our young men who pay the tax interested in the matter of education as representation.

I, for one, should be very pleased if any one of the four councillors who passed on this action, would make public their views on the subject, and their reasons for approving that the tax be raised to ten dollars.

A similar action was taken by the council last year I believe, and a protest was made by the local labor body and three of the councillors at that meeting are members of this labor body, their action is somewhat unusual, but if these councillors are prompted in their action by a higher knowledge of educational matters, they would confer a favor on some of their intended victims by getting in the open with their views.

Thanking you for valuable space.

FRANK WHEATLEY.

A PRINCIPAL TAKES STAND

AGAINST HIGH SCHOOL FRILLS
Comment on the variety of courses offered high school students is seldom voiced by members of the teaching profession, so the remarks of H. L. Miller, principal at Madison, Wis., at the Spokane county institute, have special weight. He declared that vocational training was being run into the ground, and mentioned one school where a seamstress was given to instruction in knot tying and another where the girls practice manicuring for one whole term.

What all this amounts to was summed up by Mr. Miller: "High school students are most of them loafing on the job and it is only a hypercognitive pupil who tries to do all the work assigned him." The public have felt a similar sentiment toward the multiplicity of vocational courses for some time. But the public is not called in when the curriculum is being framed.

The average parent would be pleased if concentration was required on the subjects suggested by Mr. Miller—mathematics, science, constructive arts, English and foreign languages. These provide a basis for further study, yet embrace a degree of learning which enables the ambitious to make progress through their own efforts. Others would be grateful if their children were equipped with an understanding of English grammatical forms and some facility for self-expression—Spokane Review.

L. C. O. F. DISTRICT MEETING

The meeting of District No. 6, of the L. O. O. F. met at Cowley on Tuesday evening last with the following representatives present from the five lodges in the district: Coleman, McCrae and Dolton; Blairmore, Leduc and Hoffman; Bellevue, Peters and Dryden; Cowley, Tustian and Berce; Fischer Creek, Sweeney and Holton. S. A. Fraser, D.D.G.M., of Pinette Creek, occupied the chair and George Ritsan, district secretary, was also in attendance. Several important discussions took place during the meeting and the election of district officers resulted in G. Christie, of Bellevue, being the unanimous choice for District Deputy Grand Master for the coming year, and M. B. Hoffman, of Blairmore, to succeed Mr. Ritsan as secretary. A. N. He close of the meeting Cowley Lodge supplied the delegates with a chicken supper which was thoroughly enjoyed by all.

Blairmore was chosen as the place of meeting for next year.

REBEKAHS HOLD SHOWER

Over forty members of Crowfoot Rebekah Lodge turned out last Thursday evening, when a shower was held for one of their members, Mrs. B. Brown, (nee Miss Liebe), who was married a few weeks ago.

A table, beautifully decorated, held the gifts to the bride, which were many and beautiful. After presenting the bride with the gifts, a beautiful luncheon was partaken of and the remainder of the evening was spent in dancing.

"TOLERANCE"—WHAT?

Once there was a man who went into business for himself. He was awfully kindhearted, other folks.

If a competitor failed, our friend would say: "Served him right. He didn't know how to run a business."

If a married, our friend would remark: "Well, it was high time, and the Lord must have been ready for him 'an' wantin' him worse than we did."

If a fellow got hurt in a automobile accident, our friend would chortle: "That ought to Teach him a lesson. Sun peeped at him."

If a ale Ladie got hit crossthe street, he would snarl: "They's a lot more joy walkers 'wholl get their wings clipped if they don't watch out."

Well, our friend of the kindly spirit got smashed up in a Railroad Reck. He lost his Money, wife ran away with a freckled-faced shrimp. His sun got into Jale. His horse burned up the day after the insurance lapsed. He lost his False Teeth leavin' over a bridge. He was bitten by a Mad Dog—an he lived although the dog dyed.

Our friend had now been rolled flatter'n a punkin Seed by the Juggernaut of Circumstances. An' he began to see quite Human. He wasn't half so ready to snap an' sting, an' by the time he had met with a few more vicissitudes, he was real Sweet Tempered. Understandin' an' Tolerant.

Some folks half to have the day-rights knocked out of 'em to teach 'em what they ought to have knowed in the first place.

IMPORTANT REAL ESTATE TRANSACTION

One of the largest real estate deals in recent years has just been put through, by which our local pioneer and progressive citizen, Capt. W. A. Beebe, becomes owner of a whole quarter section of the Coleman townsite.

The property is located in east Coleman and was formerly known as the Grafton Addition. About forty residences of modern type and other buildings are located on the property. Capt. Beebe secured full title to the property through paying off close to \$5000 tax arrears to the Town of Coleman and Coleman School district and paying the owner nearly another five thousand dollars for the deeds. The property is the north-west quarter of Section 9, township 8, range 4, west of the fifth meridian.

HOT AIR

Did you ever sit in the lobby or on the porch of a popular hotel and listen to the conversation around you?

About half the people are endeavoring to impress the other half with their importance.

Here is one who tells of his cars, his chauffeurs. He alludes to famous personages he has met. He is probably a clerk in the shoe store back home. Saved and scraped for this two-weeks' splurge. Lots of fun, though.

Another fellow lets it be known that he has a Japanese valet, a Russian wolf hound. His fox terrier may be afraid of a rat. And he presses his own pants.

Bragging is an international custom. The Indian used to brag of his superior construction of his wigwag; of the fine qualities of his diligent squaw.

The colored waiter brags of his ability with the ivory cubes. The American brags of the pre-war beverages he has in his cellar, and his technique in mixing the same.

We listen politely and later on confide to the wife that there are a bunch of awful liars stopping at the hotel.

Don't boast of what you have done, or of what you are going to put across. If you really amount to something, the chances are in favor of your being found out. We'll appraise you at about your true value, regardless of your announcement.

Anyway the good opinion of a perfect stranger is of little use to you. He may be as big a liar as you are, if you give him a chance to talk.

Go and accomplish something—something really worth while and let others do the press agent stunt for you.

It's oodles more fun to read a story of your accomplishments written by the other fellow, than to dictate the item and then have to publish it yourself.

Phone the Bellevue Bakery your orders for Xmas Cakes and Puddings.

The flywheel magnets, a device known wherever the products of Henry Ford are used, is the basis of a suit for \$11,000,000, which is being heard in the U.S. federal circuit court of appeals. The suit is brought by Edward S. Huff, a former engineer with the Ford Motor Co.

Blairmore Lodge, No. 68, meets every Tuesday night at 8 p.m., in the Oddfellows' hall. Officers for the ensuing year: N.G., J. S. Hoffman; V.G., G. T. S. Dawson; Sec. Sec., E. McEwen; Fin. Sec., H. James; Treas., J. Montalbetti.

HILLCREST HAPPENINGS

(By Our Own Dear Felix)

Rumor has it that the Howcroft family who left here in September to reside at Vancouver, are contemplating moving on to New Zealand.

R. Makin, who at one time resided at Michel, B.C., but after terminating his military duties, obtained his discharge in England, arrived here a few days ago.

Notices are put for a meeting to be held in the Hecue Car, at present stationed here, to discuss the forming of First Aid classes under the St. John Ambulance Association.

The dance given by the Sheiks in the Union hall was a decided success. Close on 200 couples were on the floor. The result is that the Sheiks have handed over a substantial sum to the skating rink committee.

skating rink committee.

The lumber for the skating rink arrived Monday, so it's only a matter of a few days before the rink is an actual fact. The next question will be the stronger man. It is expected that a winter intermediate-hockey team will be 1 nthe field.

The curlers are all set to start business, judging by the number who have signed up to take part in the game. The question will have to be decided very soon, whether one ice is sufficient. The K. P.'s have about five rinks in, and the Masons three, and the ladies are talking about handling the grooms as well.

COWLEY HAPPENINGS

An old-fashioned blizzard swept this part of the country on Saturday.

On Thursday evening the Cowley orchestra will hold a concert and basket social in aid of the skating rink.

Word has been received that Walt Eddy is in a serious condition in a Calgary hospital.

Mrs. Donald will hold a piano recital in Tustian's hall on December 12th in aid of the rink.

Remember, a carefully planned ba-

zaar will be held by the Women's Institute in Tustian's hall on Saturday December the 8th, from 2 p.m.

In spite of the very bad weather, a large crowd turned out to the dance given here on Saturday night by the Banff orchestra.

On Wednesday evening last Miss Gladys Baines, Miss Bernice Anderson, Mrs. M. A. Murphy, Miss Muriel Murphy, Mrs. Robert Littleton, Mrs. Roberts, Miss Marjorie Smith, Mr. H. D. McMillan, Mr. J. Jack, Mr. Hillie Swart and Mr. Ralph Easterbrook attended the Lundbeck whist drive. They report a splendid time. Mrs. Murphy and Miss Muriel Murphy were the lucky winners of the ladies' prizes, which were a fancy box of writing paper and a novelty pin cushion respectively.

AMERICAN CONSULAR SERVICE

The quotas of nationals of the following countries entitled to enter the United States prior to June 30th, 1924, are now exhausted: Albania, Great Britain, Belgium, Ireland, Egypt, Greece, Portugal, Palestine, Russia, Spain, Syria and Turkey. It is probable, also, that the quotas of the following countries will be exhausted within a few days: Finland, Austria, Bulgaria, Lithuania, Netherlands, Rumania, Switzerland.

Today I'll take home a loaf of Mother's Bread.

A boy called at our office the other day to inform us that the WOODEN silent policemen had been removed from the street.

WORLD HAPPENINGS BRIEFLY TOLD

Premier Baldwin, in the course of an election speech at Bristol, expressed the view that the British public school system was superior to that of the United States.

The special service squadron of the British navy which is to tour the world, in a 30-day cruise, has left Plymouth with Vice-Admiral Sir Frederick Field in command. The fleet will be at San Francisco for July 4.

Development of a new variety of winter wheat, which is resistant to rust or smut, is announced by the Department of Agriculture, Washington. It has been named "Ridit" because it is expected to rid the wheat fields of smut.

Canada, and particularly the prairie districts, will be the mecca for fatted States farmers next year, according to P. W. Clark, General Agent of the Canada Colonization Association at Trenton, Missouri, who was in Winnipeg recently.

Saskatchewan animals entered at the Royal Winter Fair, Toronto, have taken four championships, five reserve championships (besides senior and junior championships), one special trophy, 22 first prizes, eight second prizes and 15 other prizes.

"I think we will eventually supply all the wheat British consumers," declared Dr. J. H. Grisdale, Deputy Minister of Agriculture, on his return from England. The time was approaching when Canada would have a monopoly of the British wheat market, Dr. Grisdale said.

Enormous increases in British Columbia's agricultural and dairy production over the last five years are shown in figures compiled by the Department of Agriculture. Production of many products has trebled in the last five years, and one commodity, cheese, has increased 2,339 per cent.

New oil recovery methods, which may lead to the development of the tar sands of Alberta, have been reported to Hon. Charles Stewart, Minister of Alberta, by Charles Camwell, Deputy Minister of Mines, who has just returned from an investigation trip to the mining districts of Germany and France.

It will, Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

The Need of the Hour.

Well-Known Economist Gives Some Advice to Business Men

"There never was a time when people were so divided as to the business outlook," declared Roger W. Babson, well-known Toronto economist, to a representative gathering of Montreal business men. "This very fact, however, should cause you successful business men to take your task very seriously during the next few months," Mr. Babson said. "Cut out the frills; collect your bills; keep down inventories; reduce costs; avoid getting into more debt, and get out of debt as fast as possible. We must all work for greater confidence, more efficiency, lower taxes, and other fundamental rather than superficial remedies," was Mr. Babson's pointed message.

"The need of the hour," he continued, "is to cut out false optimism and false standards; getting back to the old-fashioned honesty, industry, thrift and service."

14087 THE PR

The Speed Of Airplanes

Means Little to Average Person But Important to Navy

In a letter to the New York Sun, Robert J. McLaughlin gives some idea of the significance of the high speed of aeroplanes. He says:

"The spectacular performance of the naval fliers doesn't mean anything particular to the man on the street beside the making of a foolish speed record, but the significance of flying at one-fifth the speed of a rifle bullet is very important to the navy. If the airplane was crossing Manhattan from west to east and was about 4,000 feet high, a soldier at Columbus Circle would have to aim at a point above the Plaza Hotel in order to hit the airplane, and the chance of making a hit would be negligible."

"The airplane at such speed could attack war craft with complete immunity, and that is the real significance of the naval tests. From a scientific point of view, 6,000 turns a minute is the limit for a wooden propeller. The tip of the blade moves at 2,500 feet a second, and a pound weight attached to the tip of the blade would pull from the centre with a force of 24 tons. The tip of the blade weighs about an ounce, and the tendency to rupture at the tip is more than a ton. The whole tendency to rupture amounts to about 100 tons, which is so terrific a strain that it makes the use of the wooden screw propeller too dangerous for the aviator."

Girls' Hair Grows Thick and Beautiful

35-Cent "Danderine" Does Wonders for Lifeless, Neglected Hair

A gleamy mass of luxuriant hair full of glaze, lustre and life short and long, fine and coarse, is the genuine tonic up of neglected scalp which "Danderine" does. Falling hair, itching scalp, and dandruff is corrected immediately. Wavy or fading hair is quickly colored, taking on new strength, color and lustre. "Danderine" is delightful on the hair; refreshing, stimulating, tonic—not sticky or greasy! Any drug store.

Conference On Immigration

Unanimously Agreed that Canada Offers Settlers Exceptional Opportunities

At the invitation of Hon. Jas. A. Robb, Minister of Immigration and Colonization, a conference of representatives of the Provincial Governments, the Transportation Companies and the Department of Immigration and Colonization was held in Ottawa on Wednesday and Thursday, November 14th and 15th. Representatives from seven out of the nine provinces were present and a very thorough canvass of the immigration situation was made. There was a unanimous agreement that Canada offers exceptional opportunities for settlers, and, in some localities, not only for settlers on farm lands, but also for workers in the timber and pulpwood industry, in mines, and in the fishing industry. The oldest provinces of Canada, as well as the newest, extend their welcome to the incoming settler or worker or willing to contribute his share to the development of industry and to the country's national resources.

It is expected that the conference will give a definite impetus to immigration activities both outside of Canada and in the important field of localizing the newcomers to his best advantage after he arrives in the Dominion.

Corn disappear when treated with Haldway's Corn Remover without leaving a scar.

Men Needed in Lumber Camps—Government forebore to meet the biggest demand for men for lumber camps in several years. Lumber concerns expect a brisk business next year in the west as a result of the heavy cut.

A fool tries to get square with others, but the wise man spends his time in blocking the attempts of others to get square with him.

A gramme of radium, it has been said, will give out enough energy before it is entirely dissipated to raise 500 tons through one mile.

Minard's Liniment for Coughs

Canadian Apple Wins

Experimental Farm at Ottawa Awarded Silver Wilder Medal

"The highest award of the American Pomological Society, the oldest horticultural body in North America, has been given this year to the Central Experimental Farm, of the Canadian Government, established in Ottawa. This award, the Silver Wilder Medal, given only for fruits of outstanding merit, was for the Lobo apple, one of the many fine varieties of McIntosh red percentage originated at the Central Experimental Farm."

The Lobo is an apple very similar to the McIntosh, but is ready for use about a month earlier, thus lengthening the season of apples of McIntosh appearance and flavor. It has proved very promising not only in the provinces of Ontario and Quebec but in the state of New Jersey, where it has been fruiting for several years.

The medal for the Lobo apple placed the sixth Silver Wilder medal which the Experimental Farm has received from the American Pomological Society for new fruits.

Pains In Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With NERVILINE

"I consider Nerville the best remedy for a cold, sore throat or tightness across the chest," writes Miss Lucy Mosher, from Windsor, N.S. "For years our home has never been without Nerville. I had a cold on my chest, the fourteen remedies couldn't break up. I rubbed on Nerville three times a day, used Nerville to rub my chest, and the chest was restored." It is because Nerville is so powerful, so penetrating, so sure to relieve congestion, that it is used in most homes, for the prevention and relief of a hundred minor ills. Get a six bottle today.

Wonderful Atoms

Too Small to Be Seen Under Ordinary Microscope

People often talk very glibly about atoms without for a moment realizing what an atom really is. Its diameter is too small to be seen under an ordinary microscope. Atoms have been closely studied for over a century and only within the last decade has it been possible to measure them. An atom is indivisible and is found to be very much like celestial solar systems, in that it contains a central sun which is called the nucleus around which revolve from one to ninety-two planets called negative electrons. These move in orbits after the style of the planets. Small as the atom is, its nucleus which is charged with positive electricity, is so much smaller that there is enough space in an atom for eight billion or more nuclei.

CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The blood in the back under a heavy strain and have but little rest. When the blood in this area is much reduced, the result is a sensation of pain in these muscles.

Many people are frightened into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is very seldom due to kidney trouble. In fact not more than one backache in a hundred has anything to do with the kidneys. The whole trouble is due to thin or impure blood, and those who are troubled with pains in the back should look to the condition of the blood. It will be no match in most cases for the "Pink Pills" by building up the blood and feeding the starved nerves and muscles will banish the pains and make you feel better in every way. How much better it is to try Dr. Williams' Pink Pills for your blood than to give way to unreasonable alarm about your kidneys. If you really suspect your kidneys any doctor can make a test in ten minutes, that will set your fears at rest, or tell you the worst.

All dealers in medicine sell Dr. Williams' Pink Pills, or you can get them by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Old Julia's Proud Record

Julia Dunn, 71 years of age, for 51 years has been sending flowers in the doorway of the booking office of the Great College Street Station, Camden Town, London, England. For all these years she has been privileged by the North London Railway Company.

Old Julia is said to be one of the most chatty of the old flower sellers of London.

Back to Normal

Boy—"I know where you can get a chicken dinner for fifteen cents." Father—"Where?" Boy—"At the feed store."

Between 9 and 12 years of age, a child spends more energy in proportion to its weight than at any other period in its life.

Minard's Liniment for Dandruff

SUNDAY SCHOOL LESSON

DECEMBER 9.

THE OUTREACH OF THE EARLY CHURCH

Theme: Widening Our Circle of Helpfulness
Lesson—Acts 8: 1-19: 35

GOLDEN TEXT—Ye shall be witnesses unto me both in Jerusalem, and in all Judaea, and in Samaria, and unto the uttermost part of the earth.—Acts 1: 8

The Lesson Setting
When—Between Acts 21 and 27.
Where—Jerusalem, Samaria, everywhere.
Who—Believers, Philip, Samaritans, Peter, John.

What—Widening our circle of helpfulness.

Questions on the Lesson Text
How came it that so many of the Christians were scattered abroad? Why had they been driven out of Jerusalem? What was the effect of this scattering of Christians? Where did Philip go to preach the gospel? How did the Samaritans receive the teachings of Christ? What effect did the miracles of Philip have upon them? Who of the Christians remained in Jerusalem? What did these men do when they heard of Philip's work in Samaria? What particular work did Peter and John perform for the Samaritans with the laying on of hands?

The Lesson Story
Last Sunday we studied that portion of Scripture which gives us the account of the outpouring of the Holy Spirit upon the disciples on the day of Pentecost, and we learned that three thousand persons were converted to Christ on that day. We saw that the preaching of Peter, that they were baptized and continued sincerely in the faith in Jesus Christ through the time of the persecution of the Christians under Paul and other Pharisees. We learn that the Christians who were scattered abroad, instead of forsaking their faith in Christ, carried it with them and told the good news of the gospel wherever they went. Philip, one of the deacons, went to Samaria, and there preached to the people. Contrary to the reception which they heard they they quickly sent forth messengers to Samaria in Jerusalem, the Samaritans welcomed it with great joy. The miracles which Philip wrought went far to convince them of the power of God, and many in the city believed. In some way, word of Philip's successful work in Samaria came back to the few apostles who were still in Jerusalem, probably by messengers such as Peter and John to Philip's assistance. We are told that these men laid their hands on the heads of the converts, that they then received the Holy Spirit.

Medical Hero Honored

Decorations Given to French Doctor Who Made X-Ray Safe

For twenty-five years, Dr. Charles Vaillant, a noted French physician, would to make the X-ray safe and practicable. Many times he was burned and his life was constantly endangered by his experiments. In 1919 the little finger of his right hand was amputated because of burns. Since then he has had thirteen operations of various kinds, which have rendered him almost physically helpless, but he works on. Recently Dr. Vaillant was highly honored in Paris. The French Government gave him the Cross of the Legion d'Honneur, France's highest honor. He was also awarded the Carnegie Hero Medal, and the President of Paris City Council awarded him the City of Paris gold medal.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

She Knew the Game

Her Escort (as pitcher and catcher hold a conference).—They are talking about what to throw to the next batter.

Girl.—But they aren't allowed to throw anything to him except the ball, are they?

Monks in the middle ages possessed not a single article of their own.

Appetite Keen and Bowels Relieved

You can relax your mind without fear of upsetting your liver or stomach. Put your faith in Carter's Little Liver Pills. Food accumulates in the liver. The blood is poisoned. The bowels are clogged. The bowels and headach, dizziness and yellow skin are relieved. Small Pill—Small Dose—Small Price.

Talking Movies a Possibility

Camera Developed Which Photographs Sound Together With Pictures

Talking moving pictures are soon to be brought into use with perfect synchronization of the sound and the picture. Dr. Leo DeForest, inventor of the three electrode audion, told radio that he will be able to photograph sound in a talk at Chicago.

He said that a camera had been developed which photographed sound together with moving pictures. Demonstration of the new process, he declared, would be given shortly. The speaker declared "that nothing necessary in radio work is impossible."

Mother! Give Sick Baby

"California Fig Syrup"

Harmless Laxative to Clean Liver and Bowels of Baby or Child

Even constipated, bilious, feverish, or sick, colic babies and children love to take genuine "California Fig Syrup." No other laxative so gently regulates the tender little bowels so neatly. It sweetens the stomach, cleanses the liver and bowels acting without gripping. Contains no narcotics or soothing drugs. "California Fig Syrup" is your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

History of the Orkneys

Seventy in Number and Only Half of Them Inhabited

The Orkney Islands lie like a fleet of ships sailing away from the north coast of Scotland. They are bare, windy and treeless. There are some seventy of them in number and about half of them are inhabited. In the course of four of them the population consists of only the light-house attendants. Orkney unites with Shetland to send one member to Parliament. The Orkneys were the "Orkades" of the classical writers; and the word is believed to be derived from the Norse word "Orkn" or "Orkn" island. The islands remained the property of the Northmen until 1468 when, the needy King of Denmark pledged the Orkneys to James II of Scotland as security for his daughter's dowry. In default of payment, the islands became Scottish territory. Scapa Flow is a splendid harbor. Here it was that the German fleet was interned in 1918. The largest island is Mainland and Kirkwall is the chief town with a population of about 4,000.

Cardiograph is New Invention

Apparatus Like Small Microscope Shows Heart Action

Another advance in the means of studying the heart has been made by the inventor of the cardiograph by Dr. D. S. Allen. This apparatus is a kind of small microscope, which, as the operator watches at the lens, projects a powerful light on the incision made just over the heart. The heart in action is seen without injuring it, and the information obtained is likely to be especially valuable in such cases as widening or narrowing of the valves. Dr. H. L. Henshaw calls attention to the further great advance of recent years in chest surgery. This has been due to many changes, including the use of adrenalin the photograph for amplifying heart sounds, the cardiograph for recording heart action on smoked paper, and electric photography of the working organ.

Some men hurry through life as if windows were chasing them.

Minard's Liniment for Distemper

Remembrance Is Needed

Only Selfish People Wish to Forget Great War

We entirely agree with what Mr. Lloyd George said a few days ago when he implored the American nation not to consider it a desirable thing to forget the war and cast it out of their memories. If to forget the war would make classes and individuals more unselfish and more devoted to the common good, this act of ceremonial observance and remembrance might well be allowed to fall into disuse. But those who say that they cannot bear to think of the war are usually the people who are so exquisitely sensitive to suffering that they cannot bear to minister to the sufferers and so excuse themselves for leaving the duty to others. It is not forgetfulness that is needed, but a better and deeper remembrance, and the present state of the world does not emphasize that obvious truth.—London Daily Telegraph.

Grain Via Vancouver

Before the end of the year the port of Vancouver will be called upon to handle 150,000,000 bushels of grain to the United Kingdom and the Orient, according to figures compiled by the Vancouver Merchants' Exchange.

About 30,000,000 wooden boxes are required annually to pack the citrus fruit crops in Florida and California.

Directors of the Blairmore Coal Co. held a meeting here last week end to discuss future plans.

Mr. G. Steeves, of the Blairmore Pharmacy, was a business visitor to Calgary during last week.

About \$250 was realized from a bazaar conducted at Bellevue last week by Ray of Hope Rebekah Lodge.

Mr. A. L. Freebairn, of Pincher Creek, is at the F.M. Thompson Co-store today, with a display of ladies' gowns.

Mrs. W. A. Henderson left by Sunday night's train for Ontario, where Mr. Henderson's mother lies seriously ill.

He kissed her in the garden. The moon was shining bright. She was a marble statue And he was drunk that night.

You can tell whether a man is a fighter or not by feeling his head. This is especially true if you feel it with a chair.

All reasonable means having failed to get the allies out of Constantinople the Turks are now threatening to enforce prohibition.

Councillor Evan Morgan returned last week end from Calgary, where he attended the Union of Alberta Municipalities convention.

Because of the liquor control system, Roseland's city debt is now only \$45,000. In the "boom" days the load was as high as a quarter of a million.

Seventeen processes are involved in the laundering of a collar. Judging from the result, sixteen of them must be necessary to get the saw-edge effect.

Mr. G. G. Coote, M.P. for Macleod federal riding, has been ill at his home in Nanion for the past two weeks, having suffered a relapse following a cold contracted during his recent visit to The Pass.

Alberta sent a commissioner to Vancouver, to secure a report on grain handling facilities there. The Calgary Herald carried the latest complete report on the same thing, which the government could have had for the asking.

At a meeting of the local barbers held last night, a scale of fees and hours was given consideration. It was decided that the closing hour for the day should be 8 p.m., except Saturdays and evenings before holidays, and that as far as possible no job be taken in hand that cannot be completed before 8 p.m. The old fee for shaving bald heads and flapperizing aged woman stands.

A doctor employed a young lady in his office and supplied a blackboard upon which might be noted the names of callers during his two days' absence. On returning he found the board perfectly clean. Here remarked: "I left this board here for the callers to write their names on and it's perfectly clean. Haven't anyone called?" "Oh, yes," replied the girl, "lots of people came and the board got so full of names that I had to rub them out to make room for more!"

Today I'll take home a loaf of Mother's Bread.

Mr. G. A. Vissac is due to return in a few days from Ottawa and Winnipeg.

The dance given in the opera house on Tuesday night by the Banff orchestra was very poorly attended.

It isn't a fair system that requires the dry agent to break seventeen laws to get the bootlegger breaking one.

Mr. Ringland arrived from Macleod last week end and is busy getting the arena and curling rink in readiness for ice.

The Lethbridge Herald, after a study of the vote on the liquor question, discovered that the vote of the women aided in the defeat of prohibition.

By order of the minimum wage board, the minimum wage for women in retail, manufacturing and laundering industries in the province has been reduced from \$14 to \$12.50 a week.

Secretary Wright returned Monday from Calgary, where he had been attending the convention of the Union of Alberta Municipalities. Mrs. Wright accompanied him on his trip to the city.

The Claresholm school of agriculture will hold its annual Christmas dance on Thursday evening, December 20th. Music will be furnished by the college orchestra, augmented by other talent. Everyone cordially invited to attend.

The Knight Sugar Co. of Salt Lake City, has purchased the entire holdings of Ray Knight, the well-known rancher of Southern Alberta. The deal includes one ranch of 140,000 acres. The big sugar company plan to continue development of the property.

The Alberta government has named A. G. Browning, of Hamilton, Ontario, formerly deputy attorney-general of this province, to represent the Alberta depositors of the Home Bank in any action which may be taken respecting the various interests in that now defunct institution.

The Misses Morrison, Helen, Jean and Isabel, were up from Cowley over the week end, visiting their aunt, Miss E. M. Fulton. Miss Helen Morrison has just received her diploma for Grade XI. She passed with honors with an average of 77 8-9. Her teacher was Mr. Stevenson, principal of Pincher Creek school.

For the first time in the history of the province, the number of auto licenses issued has passed the 40,000 mark. Receipts from this source total \$735,000 to date, the amount received last year being \$715,000. Revenue from gasoline tax is expected to reach the estimate for the year, \$230,000.

Six thousand miles from Calgary, on the night of September 25, W. H. Soase, of 50 Northgate, Darlington, Durham, England, heard the broadcast service of the Grace Presbyterian Church in Calgary which was broadcasted over CFPC, the W. W. Grant radio. This is the first time a broadcasting station west of Montreal has been heard on the other side of the Atlantic ocean. It established a Canadian record.

WHY YOUR TROUSERS

should be made by us to measure. Ill-fitting trousers spoil the entire effect of a suit no matter whether the coat and vest fit all right. Besides, there's your comfort to consider. Waist too tight or too loose, set the same, pinching, crochets, ungraceful legs, awkward draping give you a sorry appearance. Try us on your next trousers and see the vast difference tailoring makes.

J. E. UPTON.
